This report describes the student's learning progress based on provincial learning expectations for each grade level. It is intended to inform about learning successes and to guide improvement efforts when needed.

This report card shows interim marks under the Term column 1 and includes a mark for only the portion of the course that has been completed. If you have completed the course, please refer to term column F for your final percentage. If the course is provincially examinable, the final mark represents the school mark only. The student may be required to write the provincial examination. The result of the provincial exam will be combined with the school mark to determine the final percentage and letter grade. The final blended mark will appear on the student transcript from the Ministry of Education. For all other courses, the school mark is the final mark.
